

(a) Offline Distillation

Stage 1: Pre-train Teacher

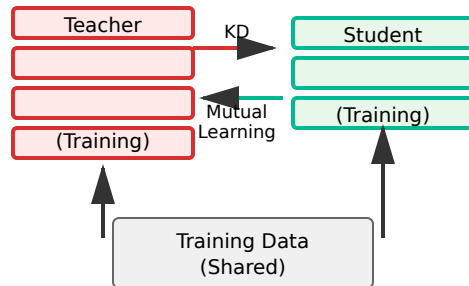

Stage 2: Distill to Student

- ✓ Simple & Effective
- ✗ Requires pre-trained teacher
- ✗ Two-stage process

(b) Online Distillation

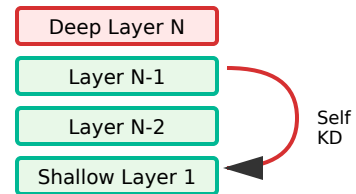

Single Stage: Joint Training

- ✓ No pre-training needed
- ✓ Single-stage process
- ✗ More complex training
- ✗ Potentially weaker teacher

(c) Self-Distillation

Self-Supervised Learning

Teacher: Deeper layers
Student: Shallower layers

- ✓ No external teacher
- ✓ Strong regularization
- ✓ Improves generalization
- ✓ Single model
